

PAMPA POLICE DEPARTMENT

2022 ANNUAL REPORT

Lance Richburg

Chief of Police

LAW ENFORCEMENT CODE OF ETHICS

AS A LAW ENFORCEMENT OFFICER, my fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the constitutional rights of all persons to liberty, equality, and justice.

I WILL keep my private life unsullied as an example to all and will conduct myself in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life. I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I WILL never act officiously or permit personal feeling, prejudices, political beliefs, aspirations, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I RECOGNIZE the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will never engage in acts of corruption or bribery, nor will I condone such acts by other police officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

I KNOW that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence.

I WILL constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession...Law Enforcement.

PAMPA POLICE DEPARTMENT

ANNUAL REPORT 2022

The 2022 Pampa Police Department Annual Report was published by the Administrative/Support Services Division of the Police Department. The information contained within is provided to give readers an accurate as possible depiction of the Pampa Police Department in the year 2022. Changes in case statuses and dispositions occur regularly. These changes can occur days, months, and even years after an initial report is taken. Such changes can affect the accuracy of this report beyond its published date.

Lieutenant Brian Massey

Administrative/Support Services Division Commander

DEPARTMENT PERSONEL

The Pampa Police Department is authorized of a total of 30 sworn law enforcement personnel, along with 13 civilian personnel. Also, under the direction of the Chief of Police are a total of 10 Animal Services personnel, including the Animal Services Supervisor. The department is directed by Chief of Police Lance Richburg.

The Pampa Police Department is divided into 4 divisions, with a command level supervisor responsible for leading each division. The department also has several specialized units, which also fall under the command of one of the command staff members listed below. For the 2022 calendar year, the divisions and their respective command staff were as follows:

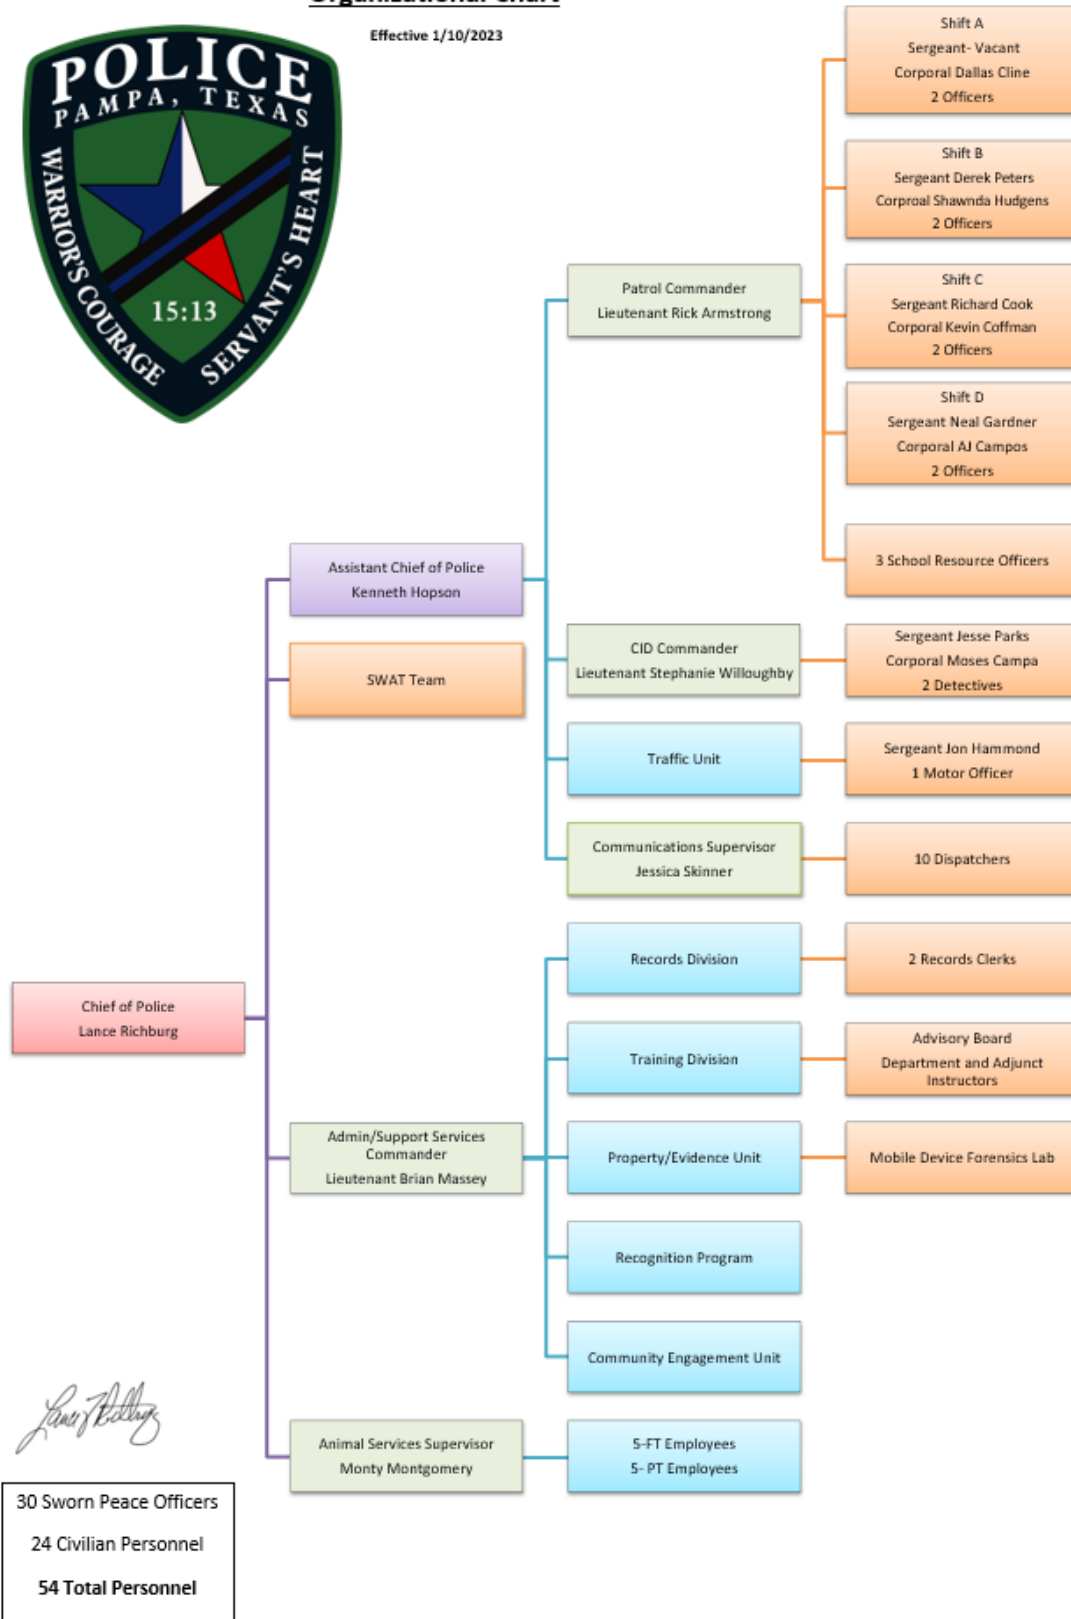

Chief of Police-	Lance Richburg
Assistant Chief of Police-	Kenneth Hopson
Patrol Division	Lieutenant Rick Armstrong
Criminal Investigation Division	Lieutenant Stephanie Willoughby
Admin/Support Services Division	Lieutenant Brian Massey
Communications Division	Communications Supervisor Jessica Skinner
Animal Services	Animal Services Supervisor Monty Montgomery

The chart below shows the organizational structure of the department:

54 Total Personnel

Department-Wide Stats

The following are department-wide statistics for the Pampa Police Department during the 2022 calendar year. The statistics are further dissected into Division-wide numbers where appropriate/applicable in the “Division” pages to follow. For the 2022 year the department made 656 arrests, generated a total of 4,251 initial and supplemental reports, investigated 203 traffic crashes, and issued a total of 4,669 citations and warnings. In addition, the department responded to or initiated a total of 19,152 calls for service.

Patrol Division

Rick Armstrong, Patrol Division Lieutenant

The patrol division, with 20 personnel, is the largest division within the Police Department. It is comprised of 8 Patrol Officers, 4 Patrol Corporals, 4 Patrol Sergeants, 3 School Resource Officers, and the Patrol Lieutenant. This division is overseen by Lieutenant Rick Armstrong.

Patrol is the division most commonly seen and noted by the public as they are responsible for responding to all emergency and non-emergency calls for police service within the city. When not responding to calls, patrol officers are trained and encouraged to be proactive, performing roving and directed patrols of our streets and neighborhoods. In addition, they perform traffic enforcement and detect and investigate suspicious persons or circumstances. They also participate in various community related events.

For patrol assignments, the city is divided into 3 zones, known as “beats”. The Division operates with four shifts of four personnel, who work on a rotating 12-hour work schedule. Each shift is comprised of a Sergeant, Corporal, and 2 Patrol Officers.

In agreement and cooperation with the Pampa Independent School District, the Patrol Division also has 3 School Resource Officers stationed throughout the district. The SROs are responsible for investigating and mitigating all criminal matters that occur on Pampa ISD property. In addition, the SROs perform and assist with teaching various crime prevention and awareness initiatives, along with alcohol and substance abuse programs throughout the school year. The SROs also strive to build strong, professional relationships with the students and staff of PISD.

During 2022 the patrol division responded to a total of 17,803 calls for service or officer-initiated activities. That number was up from 16,107 in 2021. During the year, the division made 593 arrests, completed 1,923 initial incident reports, performed a total of 142 traffic collision investigations, and issued a total of 3,494 traffic citations and warnings. The charts below show those numbers compared to their historical data points.

Patrol Division Arrests

Patrol Division Crash Investigations

Patrol Division Citations and Warnings

Response Time

Time in shown as Min:Sec

	Routine Calls	Priority Calls
2022	4:16	3:36
2021	4:23	3:51
2020	4:34	3:41

Traffic Unit

Kenneth Hopson, Assistant Chief

The Traffic Unit of the Pampa Police Department, also known as the Motors Unit, was formed in May of 2016 and is under the command of Assistant Chief Hopson. The Traffic Unit's duties include responding to and investigating traffic collisions, traffic law enforcement, and parade and funeral escorts. This unit was created in part to reduce the number of motor vehicle crashes through increased enforcement of traffic laws. In addition, the traffic unit was created to reduce the workload of the patrol division by removing some of the focus from traffic collision investigations and traffic enforcement duties, so that they could redirect that focus on criminal patrol and responding to calls for service.

During this year, the unit investigated a total of 61 traffic collisions and issued a total of 1,175 citations and warnings for various traffic offenses.

The total number of traffic collisions within the city limits of Pampa for the year of 2022 was 203. This is down from 231 in the previous year and is below the 10-year average of 271.

The charts below, and above in the "department-wide section", show these numbers compared to their historical data points.

Motors Division Crash Investigations

Motors Division Citations and Warnings

Criminal Investigations Division

Stephanie Willoughby, CID Lieutenant

The Criminal Investigations Division, CID, consists of a total of 2 Detectives, CID Corporal, CID Sergeant, and the CID Lieutenant. This division is overseen by Lieutenant Stephanie Willoughby.

CID is responsible for processing and investigating all reports that are generated by the Patrol Division and other sources. The duties related to this include identifying possible suspects through the investigative process, interviewing victims, witnesses, and suspects, and collecting and processing evidence. They are also responsible for the preparation and filing of all criminal cases sent to the appropriate prosecutor, and any performing any subsequent follow-up investigation required. Our detectives utilize a wide array of investigative tools, techniques, and resource databases to identify suspects and prosecute them the offenses they commit. The CID division also has portable emergency scene lighting and a Crime Scene Response trailer equipped with the items needed to process a larger scaled crime scene.

In 2022, the CID division processed and investigated a total of 1,923 reports generated by the department. That number is up slightly from 1,886 in 2021. During the 2022 year, of the 1,886 reports investigated, 939 have a disposition status of closed or cleared by arrest/citation. In addition, another 442 have a case disposition of unfounded. Unfounded reports are a mixture of instances where a report was taken solely for informational/documentational purposes in which no offense was alleged or occurred, or cases in which an offense was reported and was later proven to not have occurred or did not meet the appropriate elements of the reported crime. Removing the unfounded report numbers out of the total cases investigated and looking solely at the remaining two data points (1,481 investigated cases, 939 closed/cleared) the division has a investigated case clearance rate of 63%, which is a slight decrease from 67% in the previous year. Also, in 2022, 487 cases were listed as inactive, primarily due to lack of evidence or suspect identification. 51 reports were still active investigations at the year end. The charts below show those numbers compared to their historical data points:

It is noteworthy to point out the increase in number of unfounded cases the previous 2 years, along with a decrease in the number of cases cleared/closed over previous years. Prior to 2021, informational (documentation only) reports would be listed in with cases cleared and closed. In efforts to provide accurate and actionable statistical data, as well as comply with NIBRS reporting, those instances were removed from having closed/cleared dispositions and are listed as unfounded due to no offense occurring. The charts below will depict that change in reporting procedures. This change in procedure results in a significant change in the percentages for the previous 2 year's "Case Dispositions" chart below.

2022 Case Dispositions

Communications Division

Jessica Skinner, Interim Dispatch Supervisor

The Communications division consists of 10 Telecommunications Operators (dispatchers), and the Telecommunication Supervisor. The division is currently led by Interim Dispatch Supervisor Jessica Skinner. The Communications Center at the Pampa Police Department is the 9-1-1 Public Safety Answering Point (PSAP) for all of Gray County. All landline and cell phone calls made to 9-1-1 within Gray County are answered and dispatched accordingly by the Communications Division. In June of 2020, the Communications Division acquired the dispatch service for the Gray County Sheriff's Office, along with other county agencies that the Sheriff's Office was dispatching for. This move left the Communications Division responsible for all dispatch services within Gray County, creating a centralized and more efficient hub for emergency service-related communications for the county.

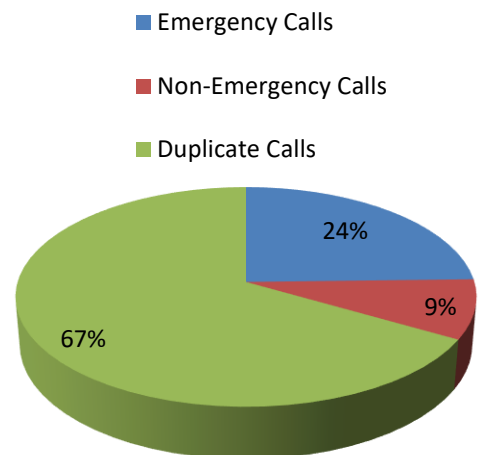

The Communications Division utilizes a Computer Aided Dispatch (CAD) system and digital VHF radio network to communicate with each of the 12 primary agencies dispatched for. In 2022, the Communications Division received a total of 17,139, 9-1-1 calls. These calls consisted of 4,052 emergency calls, 1,436 non-emergency calls, and 10,985 duplicate calls related to an incident already reported on another 9-1-1 call. A 3-year comparison of these figures is shown on the chart below.

In 2022, the Communications Center dispatched a combined total of 31,277 calls for service for all the agencies/departments that they provide dispatch service for. This was an increase of 2,056 dispatched calls from the 2021 year. This figure is above the 10-year average of 26,597 calls. The charts below show further breakdown and historical data points for these statistics.

3 year 9-1-1 Call Type Comparison

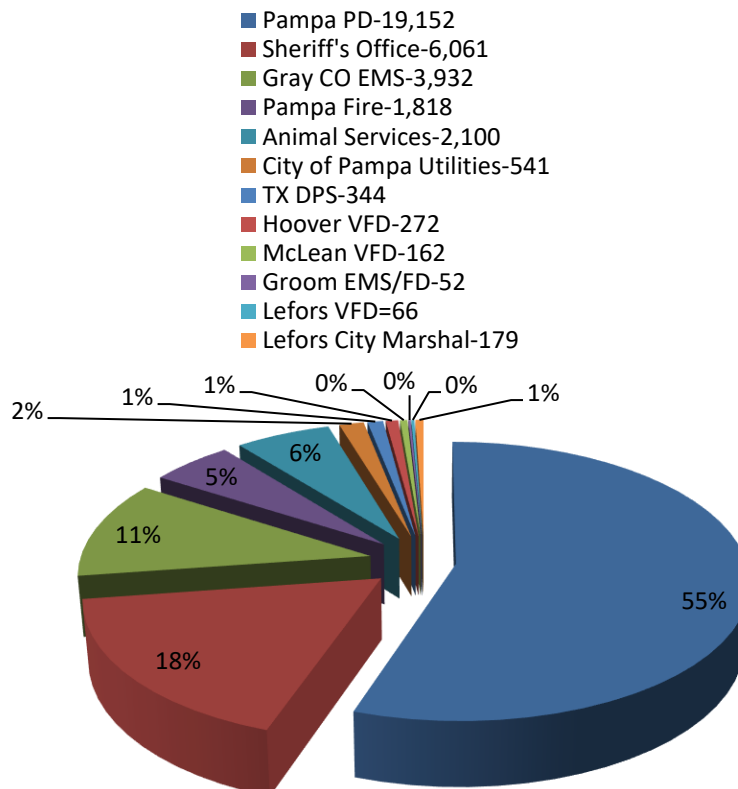

2022 Total 9-1-1 Calls = 17,139

Total Dispatched Calls for Service- All Agencies

2022 Total CFS by Agency

Admin/Support Services Division

Brian Massey, Lieutenant

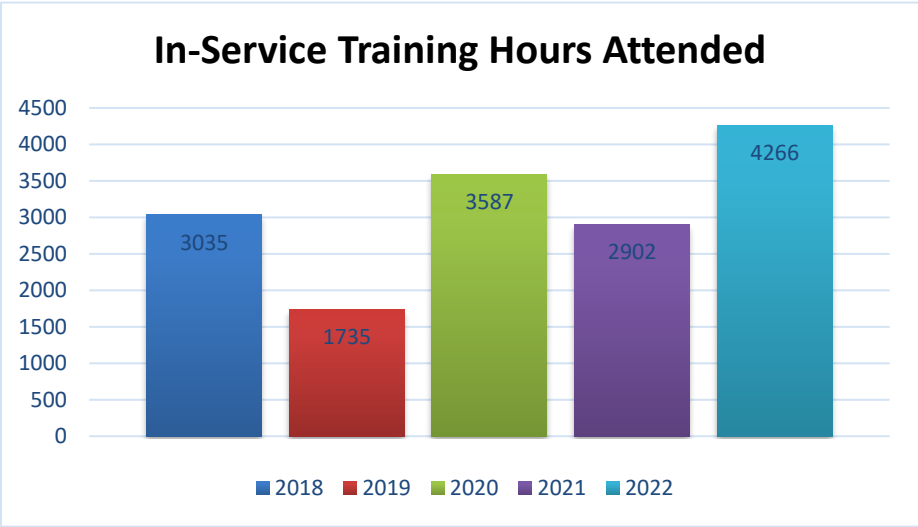

The Admin/Support Services Division is overseen by Lieutenant Brian Massey. This Division is primarily comprised of members of the Department who serve in other divisions of the department, who have special assignments in support of the department's initiatives and efforts. The division oversees Police Records, Property/Evidence room, Mobile Device Forensics Laboratory, sUAS (drone) unit, management of the Texas Police Chief's Best Practices Recognition Program, grant program management, and coordinates all department information technology initiatives and solutions, along with other administrative functions of the department.

The Division also oversees the day-to-day operation of the 3 county Crime Stoppers organization, Top of Texas Crime Stoppers, Inc. Top of Texas Crime Stoppers is a 501(c)(3) organization that offers anonymity and cash rewards to people who provide information on subjects who commit crimes and/or the location of wanted persons that lead to their arrest. Founded in 1981, then Pampa Crime Stoppers, has received and processed thousands of tips that have led to the arrest of hundreds of people and the clearance of crimes that would have otherwise gone unsolved.

A large portion of the division's responsibility is the training and education of each of the department's Officers and Telecommunicators. It is the goal of the department to far exceed the minimum training standards established by the Texas Commission on Law Enforcement. In the 2022 calendar year, Officers and Telecommunicators of the department attended and completed 313 training courses, for a total of 4,266 in-service training hours. Officers of the department also participated in short "roll-call" training video courses that the division produces and publishes weekly. These courses cover a vast number of topics centered around improving Officer safety, mitigating risks, and reducing liability.

Since 2020, the department has been a contracted TCOLE training provider and routinely instructs and hosts in-service training courses for Officers, Jailers, and Telecommunicators from around the region, state, and country. The department currently has 12 Officers who are certified instructors by the Texas Commission on Law Enforcement (TCOLE). The division continues to develop curriculum in accordance with TCOLE's requirements and will be offering a wide array of courses throughout the upcoming years. During the 2022 calendar year, the Training Division instructed a total of 16 courses, 161 students, and 522 total course hours. This was a slight decrease from the previous year. This decrease was primarily due to certain bi-annual courses not being required/instructed this year as they were in the previous year.

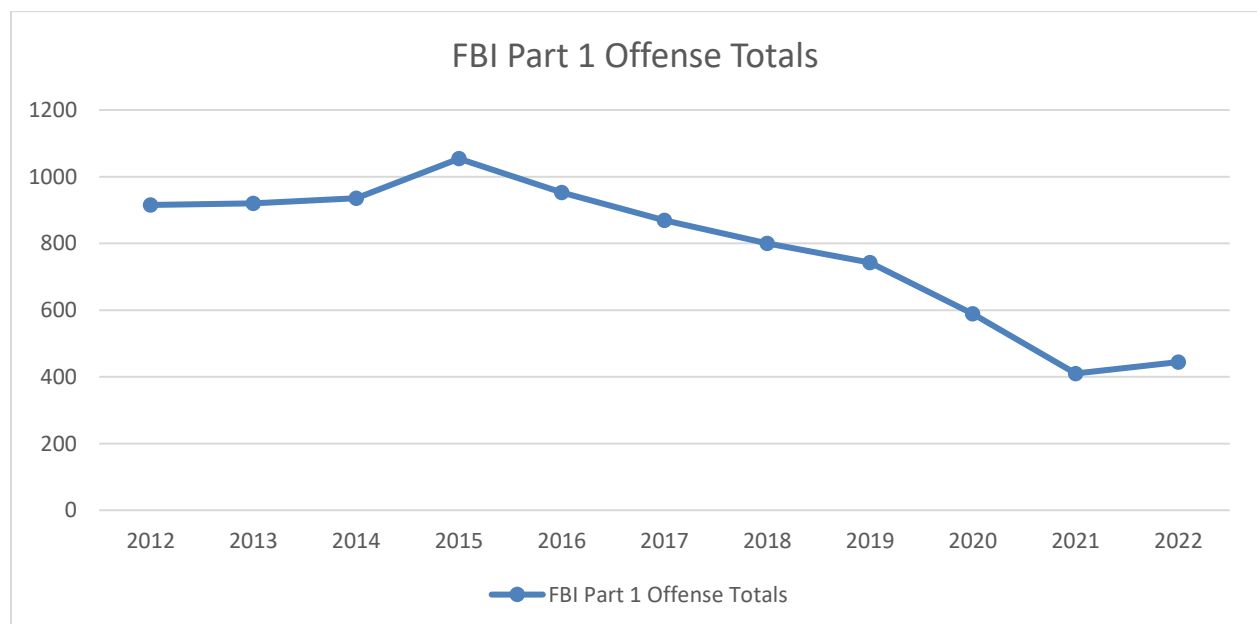

Crime in Pampa

The following data is compiled from the National Incident Based Reporting System (NIBRS) data submitted to the Texas Department of Public Safety and Federal Bureau of Investigations on a monthly basis. These include only offenses classified as Part 1 (Index Crimes) by the FBI.

Part 1 Data 2022 compared to 2021

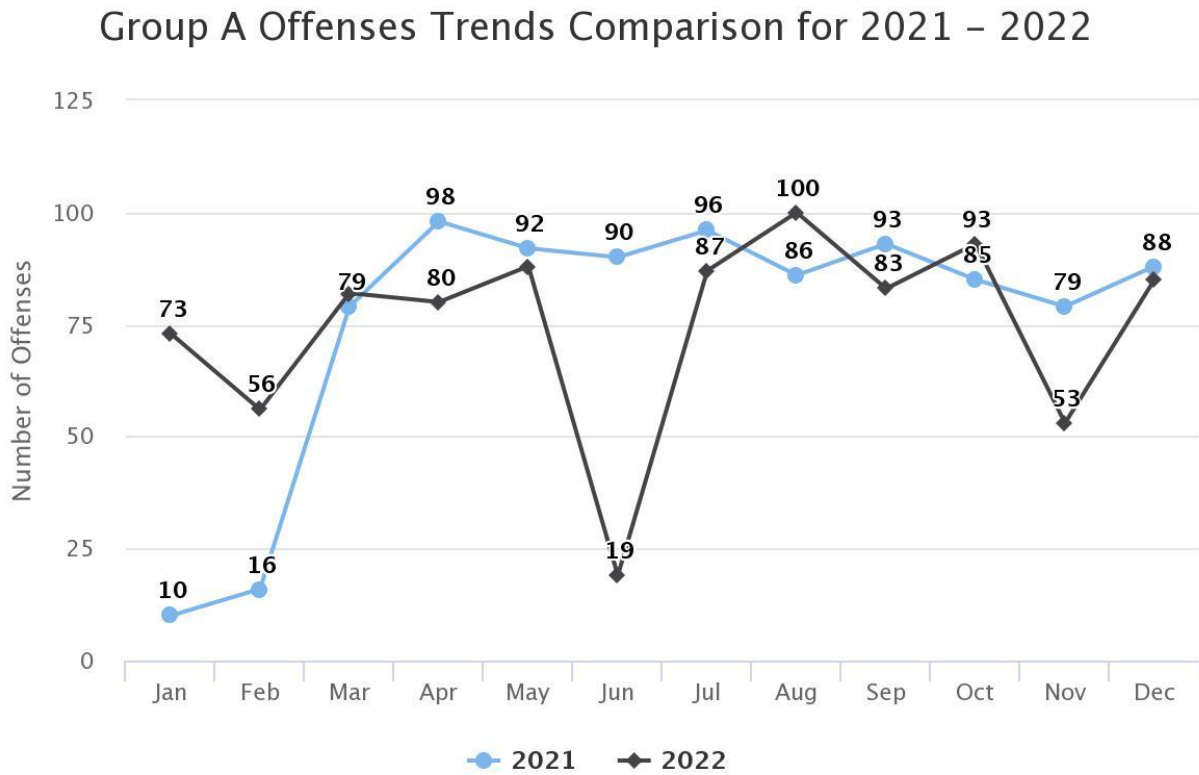

Offense	2021	2022	Change
Criminal Homicide	5	0	-5
Forcible Rape	9	5	-4
Robbery	2	4	+2
Aggravated Assaults	50	55	+5
Burglary	71	75	+4
Larceny- Theft	252	288	+36
Motor Vehicle Theft	21	17	-4
Total	410	444	+34

Drug/Narcotic Cases

Accomplishments:

Addition of 2 additional Officers/SROs

During this year, thanks in part to our partnership with Pampa ISD, we were able to add an additional two School Resource Officer (SRO) positions to the department. The addition brings our total sworn officer staffing to 30, of which 3 are now assigned to Pampa ISD schools. In addition to the 3 SROs, the department has continued to place a focus on school safety and security, along with community building at each campus. These initiatives include frequent walk-throughs/checks of each campus by department officers, greeting during drop-off and pick-up times, providing security services for extracurricular activities, and involvement in school programs and lessons. Several of the department's officers proudly serve on the District's Safety and Security Team as well as the Safe and Supportive Schools Behavioral Threat Assessment team. Through each of these efforts, it is the department's goal to provide a safe and secure environment for the students, staff, and visitors of Pampa ISD, all while building community relationships with each.

Crime continues to remain well below 10-year average

During the 2021 calendar year, the department reported the lowest amount (410) of documented Part 1 offenses within the City of Pampa in over 10 years. In the 2022 year, these numbers rose slightly (+34 total) to 444 total but remained well below the 10-year average (771). "Part 1" crime data includes Murders, Forcible Rape, Robbery, Assaults, Burglary, Larceny-Theft, and Motor Vehicle Theft. These continued lower crime numbers cannot be attributed to just one program, or event. Crime prevention/reduction is a community effort. Law enforcement agencies hold only a small portion of the puzzle when it comes to the ability to prevent and reduce crime. Certain efforts, such as better reporting methods, crime prevention programs, directed high visibility patrols, strong working with relationships with prosecutors and other criminal justice agencies, and participation in various community engagement efforts are a few small pieces of the puzzle that the department has utilized to aid in the reduction. These

are just that though, small pieces of the puzzle. We are happy to report that our community is truly working together to make Pampa a better place to live!

Axon evidence management and body-worn camera system implementation underway

During the last quarter of 2022, the Department began a capital improvement project utilizing ARPA funding to replace the department's aged and failing mobile video systems. These systems include body-worn cameras, in-car cameras, and an interview room camera system. The existing system's equipment had reached its end of life by the manufacturer, Mobile-Vision, who due to buyout and merger, was discontinuing those product lines. This had left the department with failing camera systems that were not capturing critical. The search for a new system and equipment began in 2019, and after careful consideration and testing, the department entered into an agreement with Axon (formerly Taser) for the replacement of each of those respective pieces of equipment. As part of the bundled package provided by Axon, the department was also able to upgrade the agencies outdated conducted energy weapons (CEWs), also known as Tasers, to the latest model offered by Axon. Those weapons were placed into service in August. The replacement body-worn cameras and new evidence management system (evidence.com) were placed into service in December. In-car and interview room systems will be installed during 2023.

In addition to replacing failing equipment with reliable and better-quality equipment, the additional features and functions of the evidence management system have already improved numerous processes within the agency. One of the many highlighted features easily allows citizens to be able to submit electronic evidence (photos, videos, documents, etc.) that they may have on their phone, computer, or other device directly to the evidence.com system via an "invite" sent by the Officer. Prior this was a cumbersome task, especially with larger files that could not be emailed.

Continuation of TPCA Accreditation program

The Texas Police Chiefs Association's Law Enforcement Accreditation Program is a voluntary process where police agencies in Texas prove their compliance with 170 Texas Law Enforcement Best Practices. These Best Practices were carefully developed by Texas Law Enforcement professionals to assist agencies in the efficient and effective delivery of service, the reduction of risk and the protection of individual's rights.

While similar in nature to the national accreditation program, the Best Practices Accreditation Program is easier to administer, lower in cost and is designed specifically for Texas Law Enforcement. The Texas Legislature demands a great deal of professional law enforcement in Texas and the Best Practices were specifically designed to aid Texas agencies in meeting those demands and providing the best quality of service to the people of our State.

Since its inception in 2006, over 180 Texas Law Enforcement Agencies have been Accredited and many more are currently in the process to become Accredited Agencies. While members of the Texas Police Chiefs Association recognize and support the national accreditation program, The Texas Best Practices Accreditation Program has clearly become the new Gold Standard for Texas Law Enforcement! In addition, the program meets and exceeds President Trump's Executive Order #13929, requiring certification through the Department of Justice.

The Pampa Police Department has proudly been a “Accredited Agency” of the program since 2008 and was the 6th agency in the State to achieve this status. During the 2022 calendar the department met the requirements to continue being a “Accredited Agency”.

Active Attack Response training efforts

During the 2022 calendar year, the department placed an increased focus on training related to active attack response. In addition to conducting department-wide training on the Advanced Law Enforcement Rapid Response Training (ALERT) protocol, our team of Instructors also conducted citizen based training utilizing the Civilian Response to Active Shooter Event (CRASE) training program. During the 2022 year, we instructed over 600 citizens of Pampa and the surrounding area in the CRASE program.
